

# POST-CAMP ELLIOTT ACTIVITIES AT THE TIERRASANTA AND MTRP PROJECT SITES

This poster outlines significant post-closure investigation and clearance activities conducted for those FUDS project areas at the former Camp Elliott that now lie within Tierrasanta or MTRP. (Additional Camp Elliott FUDS project areas are being managed under other contracts.)

## CALENDAR OF POST-CLOSURE EVENTS

- ❑ 1984, 1985: The Navy conducts surface clearance operations in Tierrasanta open space areas.
- ❑ 1986: Report of Ordnance Contamination, Risk Assessment and Clearance Alternative Analysis on the Former Camp Elliott
- ❑ 1988: The USACE conducts a Feasibility Study for removal of UXO from open space areas in Tierrasanta and MTRP.
- ❑ 1988: The USACE issues a Record of Decision for the portion of the former Camp Elliott that encompasses Tierrasanta.
- ❑ 1990-94: The USACE conducts ordnance clearance operations on approximately 1,900 acres of public lands within Tierrasanta.
- ❑ 1991: The USACE completes an Inventory Project Report (INPR) for FUDS project areas associated with the former Camp Elliott
- ❑ 1992-1995: The USACE conducts ordnance clearance operations in portions of the MTRP (the areas from North and South Fortuna west to Tierrasanta).
